Flooring

*A journey to discover beauty*

## Introduction

Introducing Evolution, an esteemed Indian enterprise specializing in the manufacturing. Our exceptional products are meticulously crafted to showcase unparalleled quality, available in a diverse range of sizes, thicknesses, and surfaces, catering to a vast spectrum of applications.

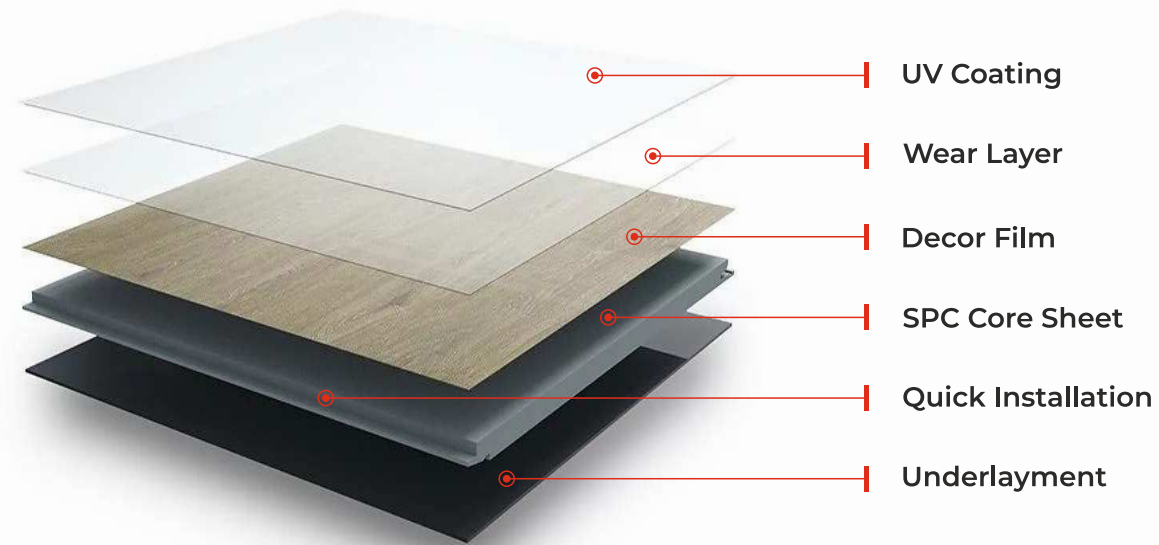

Allow us to present our groundbreaking SPC (Stone Plastic Composite) flooring—an architectural marvel that seamlessly blends technological advancement with timeless design. Created with a visionary fusion of natural stone powder and top-notch polymers, our Evolution SPC flooring epitomizes durability and style. Step into a realm where innovation gracefully intertwines with elegance as our meticulously engineered tiles transform any space into a realm of breathtaking beauty.

With unparalleled resilience and waterproof properties, our Evolution SPC flooring transcends the ordinary, empowering you to create a masterpiece that defies the passage of time itself. Immerse yourself in a world where innovation meets sophistication, where Evolution revolutionizes your living spaces.

## PRODUCT COMPOSITION

Stone Polymer composite (SPC) also known as rigid core flooring features a core that comprises mainly of limestone & PVC which results in its adaptability & strength.

## Technical Specifications

Wear Layer	0.3mm & 0.5mm
Finish	Matt
Thickness	5mm
Edge Profile	Micro Bevel Edge
Installation Method	Quick Lock Installation System

PLANK SIZE

**181X1220MM**

THICKNESS 5MM (4MM CORE + 1 MM IXPE)

# TECHNICAL SPECIFICATION

Waterproof core

Easy to cut

Hard wearing & durable

Foam backed

Slip resistant

Lighter to carry

Stable rigid PVC core

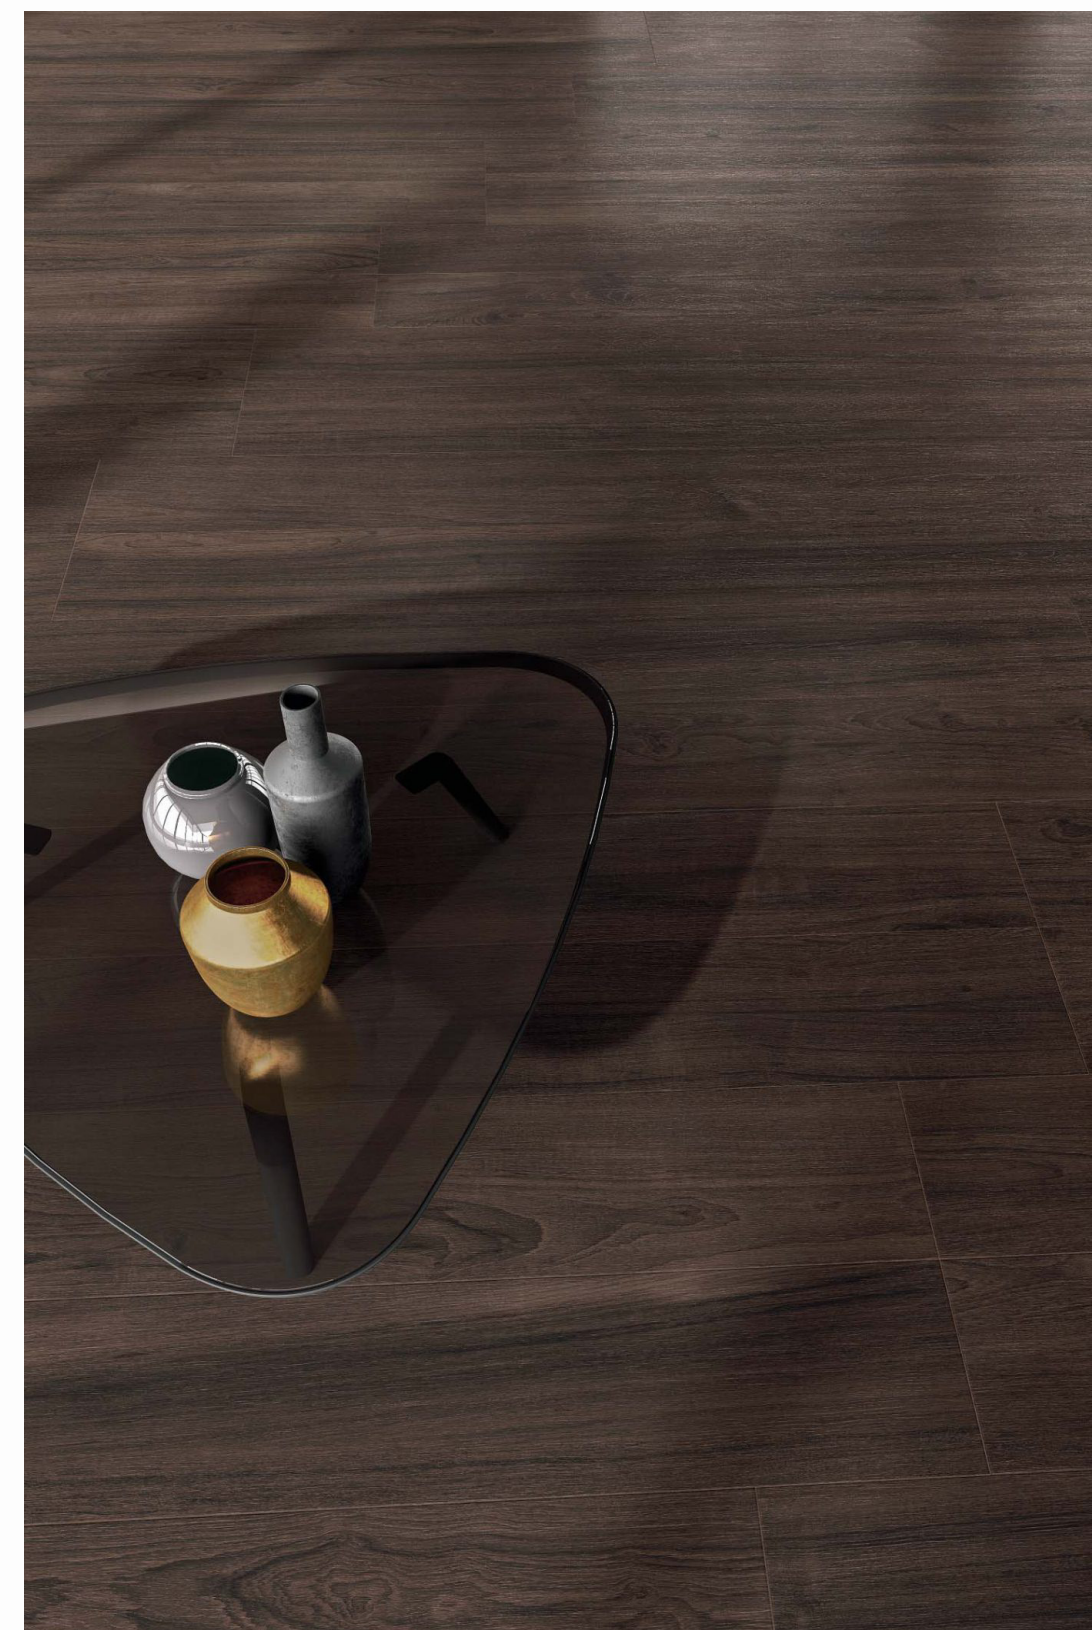

Reaction to fire tested

15 year domestic / 7 year commercial warranty

## Timeless Elegance

Elevate your space with our exquisite SPC flooring collection. Combining the timeless beauty of natural materials with the durability of modern technology, our SPC options are a testament to both style and resilience. Crafted with meticulous attention to detail, each tile exudes an aura of elegance that transcends trends and stands the test of time. Transform your surroundings into a haven of sophistication with our SPC flooring, where classic aesthetics meet exceptional durability.

Container		
Pallet/Container	Net. Weight (Apx.)	Gross. Weight (Apx.)
24	23100kg/Container	24060kg/Container

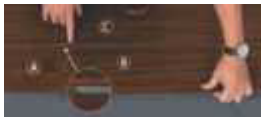

## PRODUCT APPLICATION

### INSTALLATION OF THE PRODUCT

- 

1 Place the B plate on plate A inclined, right into the fillster locking, and then let it lay flat.
- 

2 After laying it flat, place the B plate and C plate parallel to each other with spacing about 2-3 mm.
- 

3 Lift up the plates A and B at the same time.  
(Note: They should be at a 45 degree angle to the ground.)
- 

4 Push the B plate flat along the C plate direction, push until locked.
- 

5 With the palm of your hands, flatten the plates A and B, but do not use force to press to the floor.
- 6 The floors should be smooth without slit after installation. If the floor are not smooth or have a slit, then they need to be lifted and locked at a 10 to 30 degree angle. After locking, the floor will be smooth automatically.
